Technical Data sheet

One Step Non-Rinse Floor Cleaner Concentrate

Natural Enzyme Technology

Introduction

Introducing our revolutionary **One Step enzyme-based non-rinse floor cleaner**, a game-changer in the world of cleaning solutions. Specially formulated to provide unmatched cleaning power, convenience, and environmental friendliness, our product is designed to tackle even the toughest dirt and grime with ease. One Step is an 100% Australian formulated and manufactured product.

See the incredible benefits of using our enzyme-based floor cleaner:

- **Ultra-Concentrated Formula:** With an impressive 100 to 1 dilution ratio, a little goes a long way. This means that a small amount of our cleaner mixed with water can cover a large surface area, making it highly cost-effective and efficient.
- **Superior Cleaning Performance:** Our enzyme-based cleaner utilizes the power of nature to break down and digest organic materials such as grease, oil, food residues, and other stubborn stains. This leads to a thorough and deep clean that leaves your floors spotless and fresh, without the need for harsh chemicals.
- **Non-Rinse Technology:** Say goodbye to time-consuming rinsing! Our cleaner is specially formulated to require no rinsing after application. Simply mop the solution onto the floor, and the enzymes will continue working to break down dirt, leaving behind a streak-free and residue-free surface.
- **Eco-Friendly Solution:** We care about the environment, which is why our cleaner is free from harmful chemicals that can pollute waterways and harm aquatic life. The enzymatic action is biodegradable, ensuring that it's gentle on the planet while remaining tough on dirt.
- **Pleasant Fragrance:** Our cleaner is infused with a delightful, refreshing fragrance that leaves your space smelling clean and inviting. No more unpleasant chemical odours typically associated with traditional cleaners.
- **Versatility:** Our enzyme-based cleaner can be used on a variety of floor types, including hardwood, tile, laminate, vinyl, and more. It's also suitable for both residential and commercial settings, making it a versatile choice for all your cleaning needs.
- **Time-Saving Solution:** With its non-rinse feature, our floor cleaner saves you valuable time during your cleaning routine. No need to waste time repeatedly rinsing and mopping the floors. It streamlines the process, giving you more time for the things you love.
- **Family and Pet-Friendly:** The absence of harsh chemicals makes our cleaner safe for your family and pets. You can clean with peace of mind, knowing you're using a product that prioritizes the well-being of your loved ones.

One Step non-rinse floor cleaner is a powerhouse cleaning solution that offers unmatched benefits. From its high dilution ratio and superior cleaning performance to its eco-friendliness and time-saving convenience, this product revolutionizes the way you clean your floors. Embrace the power of nature with our enzyme-based floor cleaner for a spotless, fresh, and safe environment in your home or business.

Typical Applications

- Homes and dwellings
- Residential Property Management
- Commercial Spaces
- Schools & Educational institutions
- Hospital & Healthcare facilities
- Retail & Shopping centres
- Hardwood, tile, laminate, vinyl, linoleum, and more.

Advantages

- Ultra-concentrated formula with a 100 to 1 dilution ratio
- Enzyme-based, natural cleaning action
- Non-rinse technology for time-saving convenience
- Suitable for various floor types
- Eco-friendly and biodegradable
- Family and pet-safe
- Pleasant and refreshing fragrance

ENZYMEL B

GREEN & CLEAN.

Technical Data sheet

Typical Physical Properties

These properties are typical and should not be considered specification

Appearance	Clear Liquid. Pale Green Liquid
Odour	Fresh, Pleasant fragrance
Density	1.01 – 1.05 g/L
Solubility in H ₂ O	Complete
pH	7.0 – 8.0 (neutral)
Boiling Point	105°C

Methods of Application

1. **Dilution:** For regular cleaning, dilute 1 part One Step with 100 parts water (100:1 ratio). Adjust the ratio as needed for heavy-duty cleaning.
2. **Application:** Mop the solution evenly onto the floor surface.
3. **No Rinsing:** One Step is a non-rinse formula. Allow the floor to air-dry, and the enzymes will continue to work for a deep, streak-free clean.
4. **Spot Cleaning:** For stubborn stains, apply the undiluted solution directly to the affected area and let it sit for a few minutes before wiping clean.

Packaging

1L twin chamber, 5L, 20L, 200L and 1000L

Shelf life

12 months from manufacturing date – store in cool and dry area and do not exceed temperatures of 35°C and R.H 80%

Disposal

In accordance with all local and state laws for disposal.

Safety

Classified Non dangerous goods material. It is recommended that the handling instructions outlined in the **Safety Data Sheet and label be followed.**

Keep out of reach of children and pets.

Avoid contact with eyes. In case of accidental eye contact, rinse thoroughly with water.

If swallowed, seek medical attention immediately and provide the label or Safety Data Sheet (SDS) to the medical professional.

FIRST AID: Eyes - If eye contact occurs, flush thoroughly with water and seek medical advice. Skin - If signs of swelling, rash or irritation occur on skin, wash area with soap and water and discontinue use. Swallowed - If swallowed rinse mouth out with water.

If needed, for advice, contact the Poisons Information Centre (**Australia 131 126, NZ 0800 764 766**) or contact your local doctor or hospital.
