Glow Toilet & Bathroom Cleaner

Natural Enzyme Technology

Introduction

Introducing Glow Toilet & Bathroom Cleaner – Your Ultimate Solution for Sparkling Clean Bathrooms!

Tired of dealing with stubborn stains, foul odours, and unhygienic bathroom surfaces? Look no further! Glow Toilet & Bathroom Cleaner is an advanced enzymatic formula designed to revolutionize your cleaning routine. With the power of enzymes, this cutting-edge cleaner delivers unmatched results, making your bathroom shine like never before.

- **Unrivalled Cleaning Power:** Combines the potency of enzymes with active cleaning agents, offering unbeatable performance against the toughest bathroom grime. Say goodbye to stubborn stains, mineral deposits, soap scum, and hard water marks with ease.
- **Removes Biofilms:** Glow specialised formula targets and eliminates biofilms, those slimy and resilient accumulations that form on bathroom surfaces. Say farewell to the hidden breeding grounds of harmful bacteria and ensure a truly deep and long-lasting clean.
- **Odour Elimination:** This powerful cleaner not only cleans but also neutralizes unpleasant odors at the source. No more masking foul smells; Glow leaves your bathroom smelling fresh and inviting.
- **Replaces the Need for Bleach:** Say goodbye to harsh chemicals like bleach! Glow enzymatic action effectively cleans and sanitizes without the use of harmful substances, ensuring a safer and eco-friendlier cleaning experience.
- **Breaks Down Organic Matter:** Glow enzymes actively break down organic matter, including stains caused by bodily fluids, making it an ideal solution for maintaining a hygienic and fresh bathroom environment.
- **Prevents Clogs:** Regular use of Glow helps prevent the buildup of organic matter, reducing the risk of clogged pipes and ensuring the smooth functioning of your toilet and drains.
- **Safe for All Surfaces:** Whether it's porcelain, ceramic, stainless steel, or glass, Glow Toilet & Bathroom Cleaner is gentle yet effective on all bathroom surfaces. Rest assured that your fixtures, tiles, and countertops will retain their shine and luster.
- **Time-Saving Efficiency:** Thanks to its powerful enzymatic action, Glow works quickly, minimizing the time and effort required to clean your bathroom. Spend less time scrubbing and more time enjoying a sparkling clean space.
- **Fresh, Long-Lasting Fragrance:** The light and refreshing fragrance of Glow lingers in your bathroom, leaving a pleasant ambiance long after the cleaning is done.
- **Family and Pet-Friendly:** With a non-toxic and hypoallergenic formula, Anozyme is safe for your entire family, including children and pets. It ensures a hygienic environment without compromising on safety.

Discover the joy of a pristine and sanitized bathroom with Glow Toilet & Bathroom Cleaner. Say hello to a new level of cleaning effectiveness and bid farewell to old-fashioned cleaners. Make the switch today and experience the difference for yourself!

Typical Applications

- Toilet Bowl Cleaning
- Shower and Bathtub Cleaning
- Sink and Faucet Cleaning
- Tile and Grout Cleaning
- Bathroom Surface Maintenance

Advantages

- **Enzymatic Cleaning:** Glow incorporates specialized enzymes that effectively break down organic matter, including stains and biofilms, providing a thorough and deep clean.
- **Odour Neutralization:** This cleaner not only cleans but also neutralizes unpleasant odors at the source, leaving a fresh and inviting fragrance after each use.
- **Non-Toxic and Eco-Friendly:** Glow is free from harsh chemicals, making it safe for both users and the environment. The biodegradable formula ensures minimal environmental impact.
- **Versatile Dilution:** Glow can be easily diluted with water at a 10 to 1 ratio, allowing users to adjust the cleaning strength according to specific cleaning requirements.
- **Safe on All Surfaces:** Suitable for a wide range of bathroom surfaces, including porcelain, ceramic, stainless steel, and glass, preserving the shine and luster of fixtures and tiles.

Typical Physical Properties

These properties are typical and should not be considered specification
